surdicécité et troubles sensoriels

March 30, 2022

The Brant County Health Unit has declared an outbreak at Sensivity in Paris following the positive tests of two residents and one staff member for COVID-19. Provincial government guidelines require an outbreak be declared when a single positive case among staff or residents is reported at congregate living settings.

We are working closely with the Brant County Health Unit (BCHU) to coordinate contact tracing and any necessary COVID-19 testing for people we support and staff.

We are unable to identify the individuals who tested positive due to the confidential nature of the medical information. Our thoughts and wishes are with each person for a full and speedy recovery.

Please note, all visits to the Sensivity apartments have been suspended effective immediately until further notice. Outings and activities in the community including family visits for the people in our services have also been suspended effective immediately.

We appreciate everyone's support and understanding for the measures we need to take to ensure the safety of the people we support and our staff.
